Pullin' back from the precipice  
Feel so small now, stars shine bright above  
Don't know why  
Receive a better life for a song  
Can't but try, other leads apply

Lookin' up at tragic rush on underground  
Birds will turn and fly  
Don't know why  
Passin' through the day, only child  
Breathe a sigh, other leads apply

Raining all day, trying to reach you  
Feel so helpless, can't stop counting time (but in)  
Don't know why, hands (something) stealin' my heart  
Graceful dives , other leads apply\* (rain down  
from the sky)
