Forty or fifty horses

Lying in a lot

Red raincoats and rifles

An epidemic has been stopped

Scientist speaks what are you wondering about?

He got where he is by turning lab mouse inside out

CHORUS

The things we do and have to do

The things I do for you

And what you do for me too

The "Yeah, but I..."

And any other excuse

And if you take it for given

Then what's the use

All his possessions

Around him in his house

Lying beside him his

Companion and spouse

And in the morning

He dress and go to hell

All activated by

A little timer bell

CHORUS
