Take me for drive to the coastline
Pull me to the depths of the sea
Leave me in the middle of the ocean
I can walk the rest of the way

And I promise not to cry anymore
All the reasons beat the crap out of me

Everyday when I wake up they are waiting
But I promise not to cry anymore
'Cos it's the same old plot these things
Oh it's the same old plot these things
Oh it's the same old plot these things
Oh it's the same old...

Our love, don't mess with our love
Our love is so much stronger
Our love, don't mess with our love
Our love is so much stronger

Oh it's the same old plot these things
Oh it's the same old plot these things
Oh it's the same old plot
Same old plot
Same old plot these things

Oh I promise not to cry
Oh I promise not to cry
Oh I promise not to cry
Anymore
