From the left to the right
They receded into the night
It's not safe or they warned you, it's not
Safe
I'll run till there's nowhere left to run
From the front to the back
Will they faded into black
And they lost me and others just like
Me
I will run till there's nowhere left to run
I will love till there's no one left to love
From the North to the South
There's a blanket of stars to count

And a live time behind us
A live time
(x2)
I will run till there's nowhere left to run
I will love till there's no one left to love
From my lips to your ears
I'm taking down your every fear
That's what I'll do
(x3)
Stick with me kid
That's what I'll do
I will run till there's nowhere left to run
I will love till there's no one left to love
