

Dears, The

"Unsung"

Visit "[Unsung](#)" on MotoLyrics.com

Looking for fossils lost
From a battle won
In a stroke of luck
Clash of the Titans here
Just to frighten us
Into givin' up
No, we can't throw it away
And forsake all we got
No, we won't throw it away
And forsake all we got
No, we won't throw it away
Was it a massive war
Of the classes or
Just a passin' thought?
End up in shambles
No preamble taken down
And seconds fly
No, we can't throw it away
And forsake all that we got
No, we won't throw it away
And forsake all that we got
We're too, we're too young
We're too, we're too young
Too young
Oh, too young
No, we can't throw it away
And forsake all we got
No, we won't throw it away
And forsake all we got
(Don't throw it away, don't throw it away)
Don't throw it away, don't throw it away
Don't throw it away, don't throw it away
Don't throw it away
It's safe for us
To take the drops
Don't wanna sleep it off
We're too far gone
We'll never ever go back home
Don't wanna sleep it off
(We're too)
Don't throw it away, don't throw it away

Don't throw it away, don't throw it away
(We're too young)
Don't throw it away, don't throw it away
Don't throw it away, don't throw it away
(We're too)
Don't throw it away, don't throw it away
Don't throw it away, don't throw it away
(We're too young)
Don't throw it away, don't throw it away
Don't throw it away, don't throw it away
(We're too young)
Don't throw it away, don't throw it away
Don't throw it away, don't throw it away
(We're too young)
Don't throw it away, don't throw it away
Don't throw it away, don't throw it away
We're too young
