Last night all the horrible
Things in life
Start through my dreams and
I just want to shine it up,
Shine it down or shine off

Going where we lost it all
Yet things before are with us now
It hurts it kills
It takes a choice
It brings no light
It brings no love

And what we want most
Is no where to be found
Some people care
They're going long
They're going deep
Still it's nowhere to be found

We're looking far
We're searching wide
Still it's nowhere to be found
We're looking far
We're searching wide
Still it's nowhere to be found
What we want is gone for good
It's simply nowhere to be found

Somewhere is the one that never will
burn out
They're looking for a heart
Looking for a home
Looking for a hand
This broken head
You're not alone
You're not alone
You're not alone
You're not alone
You're not alone

And you never said I'd see you again
You never said I will
You never said I'd see you again
You never said I will
I will
I will
I will
My love

Someone somewhere says they've got it all
But that's not even what we want
Not even close
Not even close

It won't ever be what we want
It won't ever be what we want
It won't ever be what we want
It won't ever be what we want
It won't ever be what we want
It won't ever be what we want
It won't ever be what we want
