Life may not always go your way

And every once in awhile you might have a bad day

But I promise you now you won't ever be lonely

The sky turns dark and everything goes wrong

Run to me and I'll leave the light on

And I promise you now you won't ever be lonely

For as long as I live

There will always be a place you belong

Here beside me

Heart and soul baby -- you only

And I promise you now you won't ever be lonely

It's still gonna snow and it's still gonna rain

The wind's gonna blow on a cold winter day

And I promise you now you won't ever be lonely

You're safe from the world wrapped in my arms

And I'll never let go

Baby, here's where it starts

And I promise you now you won't ever be lonely

Here's a shoulder you can cry on

And a love you can rely on

For as long as I live

There will always be a place you belong

Here beside me

Heart and soul baby -- you only

And I promise you now you won't ever be lonely

No, no, you won't ever be lonely
