Life may not always go your way  
And every once in a while you might have a bad day  
But I promise you now you won't ever be lonely

The sky turns dark and everything goes wrong  
Run to me and I'll leave the light on  
And I promise you now you won't ever be lonely

For as long as I live there will always be a place you  
belong  
Here beside me, heart and soul baby you only  
And I promise you now you won't ever be lonely

It's still gonna snow and it's still gonna rain  
The wind's gonna blow on a cold winter day  
And I promise you now you won't ever be lonely

You're safe from the world wrapped in my arms  
And I'll never let go baby, here's where it starts  
And I promise you now you won't ever be lonely

Here's a shoulder you can cry on  
And a love you can rely on

For as long as I live there will always be a place you  
belong  
Here beside me, heart and soul baby you only  
And I promise you now you won't ever be lonely  
No, no, no, no, no, no, no you won't ever be lonely
