Started with a movie at a friend's house
Told a joke to make you notice me
I can't believe I've got your full attention
I've never had this kind of chemistry

Told you stories of long ago
Why'd I open up? I don't know
This is getting serious, never felt like this before
Swimming into dangerous waters for sure

It kills me when you're not with me

This is an emergency, acting under urgency
Someone get the doctor please
It's an emergency!
You can't breathe, you c-can't breathe

And love is suffocating me, but I'd kind of like to be
Lost in all your energy
It's an emergency!
She's coming for me now

Whoa whoa, whoa whoa, whoa whoa

Want to tell you girl you really got me
My heart is stuck under your lock and key
I think I'm coming over in a fever
Burnin' as I'm dropping to my knees

With you a destination unknown
Sorry friends I've got to go

This is an emergency, acting under urgency
Someone get the doctor please
It's an emergency!
You can't breathe, you c-can't breathe

And love is suffocating me, but I'd kind of like to be
Lost in all your energy
It's an emergency!
She's coming for me now

Whoa whoa, whoa whoa, whoa whoa

It kills me when you're not with me
Here tonight, why oh why?
E-mer-gen-cy

This is an emergency, acting under urgency
Someone get the doctor please
It's an emergency!
You can't breathe, you c-can't breathe

Now love is suffocating me, but I'd kind of like to be
Lost in all your energy
It's an emergency!
It's an emergency!
