Chorus: Nate Dogg]

When your days get lonely (days get lonely)

When your nights get cold (nights get cold)

When the rain starts pouring (rains starts pouring)

When your man aint home (man aint home)

You can call me baby (call me baby)

You can let me know (let me know)

You aint had none lately (had none lately)

Lemme in your backdoor (let me in your backdoor)

[Verse 1]

Meanie walks out the door

Meanie act like he dont want you no more

You can do the same thang

Two can play at this game

With his love and you bored

He got you doing his chores

Minus will be with me

You aint nobody's slave

When your days get lonely

[Chorus]

[Verse 2]

He aint never gone change
He still be playing them games
You can do the same thang
Girl i won't say a thang
If you dont tell, I wont tell
We gave in life, what the hell
We both want the same thang
Aint no need to complain
When your days get lonely
[Chorus - 3X
