Chorus]

I'm from the jungle with the concrete streets

You don't wanna rumble wit the real O.G.'s

Man I'll plant ya like a chronic seed

And ya girl done ran away wit me

I can show you how to catch these freaks

I can show you how to beat these streets

I can show you how to crack the safe

Let me show you how to break that bank

[Nate Dogg]

Ain't a damn thang changed

Still rollin on Dana Danes

Still packin steel claimin DPG

I always keep my thang

Always got weed on my brain

Always got a dime piece wit me

I'm gone let yo roll call

I'm gone ball till I fall

Keep it gangsta just for all of ya'll

Nate D, O, double G

Bangin from the west to the east

[Chorus]

[Nate Dogg]

No need to fight it baby

I know you want it lady

I can tell by the way you watch me

I like the way that you walk

I like the way that you talk

Ooh what that accent does to me

Yeah I still claim 213

Yeah I still bang DPG

Hang wit Nate, Snoop, and Warren G

Yeah I got hoes that love me

Got gangstas bangin my beats

I got hoes from here to overseas

[Chorus]

[Nate Dogg]

I need a gangsta lady

One from around the way

I need a girl that likes to play everyday

She said her friend wants to see

She said her friend is nasty

I say you get your friend and come right away

[Chorus 2X]
