Chorus:

G is for the gang of money I make

F is for the gang of fools I break

U is for the undisputed champ

N is 'cause you never gonna get the mic back

K is for the niggaz that I knock on they back

Damn is feels good to see Long Beach on the map

Till the day I'm dead I'm gonna keep that shit real

Now you niggaz know G Funk's for real

To those people who don't believe in G funk

Tried to take my style and make a quik buck

here's a message to one and all

Your pass is revoked

Now I'm havin' a ball

Any questions come and see me

the king of G-Funk the one and only

Congratulations you sound like Nate

You took my old hook

And got me paid

Chorus

Some people are nothin' but clones

Some people have styles of their own

Some people are copycats

These people can't get the mic back

Can you feel me one-hitter quitters

You can't copy me - I'm one in a million

Call any expert and you can ask him

Copy machines can't copy platinum

Chorus

When you feel like some cavy G-Funk

You need some music to bumb in your trunk

I got a baseline, a gangsta tune

Put on the classics and your head will be movin' soon

Chorus
