Chorus)

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world you know what I'd do

Take a million dollars out the bank with you

give a half a million to the chronic man

yes I would do it cuz I can

If this were my world you know who I'd screw

all the muthafuckaz that be screwin you

Not that I'm trying to get elected man

I would set trip because I can

If this were my world the holidays would be

One for famous black folk and one for me

Just in case you dont know who I be

Make a holiday for the G-Funk king

If this were my world things would go my way

Every single day I'd have one more day

And if ever anybody got in my way

All I can say is first we pray

First we pray

(Chorus)

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world you can bet I'd clown

Have a mini mansion in every town

Fan mail comin in from all around

Asking me where did I get that gangsta sound

If this were my world it would only be me

Standing on top of the industry

Bouncing like a ball over tight ass beats

Remind yourself that can't nobody can bust like me

If this were my world every day they'll be

Another young brother claimin DPG

Raised from the good of dogs to make money

Why do niggaz talk about what they can't see

If this were my world I'd take my gangsta name

Set it at the top next to fortune and fame

Finally I got myself up out of them chains

If they lock you up dont let em count your brain

(Chorus)

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world

You now what I'd do

Buy me a space ship and the condo on the beach

If this were my world

I'd have a low low crew

We'd go through your hood

And do what gangstas do

If this were my world

(Chorus) x2

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world

If this were my world (If this were my world) My world
