Nate Dogg]

Hey OG, could you tell how to find some good weed

I need it homie oh so fast

That last bag was the best weed I've ever had

Bass so deep, I can't even seem to feel my feet

Girls so fine, I can't help it got to make this one mine

I hit em with my, gangsta leans

They can't seperate my music from me

[Chorus]

Music and me [3x]

Music, my music and me

[Nate Dogg]

Time does change, but the music it remains the same

I hit em with the music from the slave

Oh my goodness, what my ancestors gave

I don't want to think I don't know

They thought me how to reach deep down and touch  
the soul

Without my music, where would I be

You thought me how to cry and still remain a G

You keep alot of soldiers at ease

And together the next next level proceed

[Chorus]

[Nate Dogg]

Music and me, go together perfect harmony

Soft at mellow, oh so hearted to make your sweet kiss  
explode

Stay with me, and together we will live out this dream

My music and me

Music and me [4x]

My music and me

Music and me [4x]

My music and me
