Chorus x4]

I gonna make

I'm gonna make my money (money)

From the time that I was only seventeen

I knew I loved to write, I knew I loved to sing, I've seen

I've seen about my friends and all the gangsta things
we did, we did

Back in those days there was some who always said

You'll never make it no, you'll never get ahead of time

I guess I'm going for mine, contrary to what they said
and I did

this is just to let you know

[Chorus x4]

I gonna make

I'm gonna make my money (money)

No matter what they say to me, I'm gonna make my
money

And anyone who don't believe, best stay away from me

Been on a mash for currency, since 1993

There ain't no way you stopping me

I'm determined as I can be

And if my funds get low again one thing I can
guarantee

you catch me by the corner store sellin badass bags of
weed

Not because I think it's cool, or because I think it's neat

It boils down to one simple fact, me and mines have
got to eat

[Chorus x4]

I gonna make

I'm gonna make my money (money)

[x4]

Tell me have you ever heard G-Funk

Tell me have you ever heard

Nate Dogg and Warren G had to regulate

[repeats through chorus]

Tell me have you ever heard G-Funk

Tell me have you ever heard

[Chorus x4]

I gonna make

I'm gonna make my money (money)
