And can no hood fuck with gangsta shit" ---> [Tray
Deee]

[Intro/Chorus - x4]

Stone cold baby

Stone cold baby

Stone cold baby

As cold as can be

Hey let's party y'all

All I wanna do is have a good time

Tonight it's goin down

Hey just roll it up

It don't matter who's at the party

Somebody's leavin with me

Hey let's set it off

I see the girl that I want (that I want)

I see the girl that wants me

Hey it's gettin hot

But before my body gets bothered

Let me tell you this about me

Momma kicked me out when I was sixteen

Woke up the next mornin with some D-O-G's

I felt a little bad but I had money

Went and bought some dope and some blue khakis

While you were hangin out in the promised land

I was growin up on the Long Beach sand

So if you're intentions were to leave with me

Remember when I'm satisfied

I'm just as cold as can be, stone cold

[Chorus]

Damn this is a cavi beat

I feel like takin time on this beat

To smash you all

But teachers are supposed to teach

So I'ma teach and you gon' listen or else you got to fall

To battle that's a thing that I've always done

Never lost a battle that means I'm number one

Don't hang with cowards cos they always run

If you be rollin with cowards don't forget your gun
(ahhhh)

Damn I really love to compete

Another victim I would love to delete

Come one come all

Taste the agony of defeat

But I know how sneaky niggas can be

When e're they fall

Some niggas try to take my cash

Dumb niggas try to make me blast

These days it's kinda hard to laugh

I gotta host of new friends I never had in the past

Some niggas try to take my cash

Dumb niggas try to make me blast

These days it's kinda hard to laugh

I gotta host of new friends I never had in the past

Stone cold

[Chorus - x4]

Hey let's party y'all

All I wanna do is have a good time

Tonight it's goin down

Hey just roll it up

It don't matter who's at the party

Somebody's leavin with me

[repeat x2]
