Would the hardest man please stand the homie stood
right up!

Saggin pants gat in hand the nigga was a nut!

Looney looking OG been bangin from the jump

Dressed in all black ready to jack

and he still don't give a fuck

A friend of of mine he used to be before I got caught
up

He used to roll with me back in ninety three

when I was broke as fuck be prepared to blast

That's all that he at, because he used to ride with you

We gonna make some cash, and blast, you can toss
him when you're

through

Chorus

The hardest man in town

The hardest man in town

The hardest man in town

The hardest man around

Little big man, don't you see me lying here

Pick me up, if you dare

I'll make you're life easier, cuz I'll be pumpin fear

Disrespect, you don't have to take
If you see them coming, just wave me in his face
but you ain't the only one that got a friend like me
So hurry up, let's go, I'm kind of tired of being broke
I know you gotta get paid, I can show you the way
So take me home, polish the chrome
Load me up, and put me to his dome
I got a lot work to do, so toss me and be gone
You're a big man now
You're a big man now
You're a big man now
You're a big man now
I told you once before I'm pumping fear
nobody's gonna step to you, let them know I'm here
and if you have questions in the corner of your mind
pull the trigga, and leave your questions behind
Chorus until fade
