Here we stand, as time keeps turning, near and far, the
fires are burning
Victory, the endless passion, for a cause, we will take
an action

I'm not a savior, I'm not a king, there's only the voice in
your head
But I feel your anger, I speak your peace, freedom time
is here

So are you ready for the here and now

Sacrifice, the soul keeps baring, bring new life to a
world worth sparing

I'm not a prophet, I'm not a prince, the ego dies with
the flesh
You are the garden, I am the seed, harvest time is here

But tell me are you ready for the here and now

Courage, sacrifice, victory, freedom

(solo)

One for all, time is fleeting, hear the call, our world is
bleeding

There are no saviors, there are no kings, the power lies
in your hands
So, you be the fire, the light without heat, precious time
is here

So tell me are you ready for the here and now, so tell
me are you ready
Are you ready for the here and now, so tell me are you
ready
Are you ready for the here and now, so tell me are you
ready
