V1: Why don't you come back and get, these restless
words you left in my bed
When you're here please leave those promises that you
couldn't keep
How could you let me go?
I'm the best grudge that you'll ever hold
We're facing fight or flight
But I've never been a fan of heights

CH: Let's pick up all the pieces
And turn them into reasons
Cause we're going nowhere
There's nowhere to be
I'm just not in the mood to leave

V2: Let's give this another shot
Cause in the end we'll forget why we fought
Fell through a trapdoor, I don't want out cause I want
more
Breathe in, breathe out, repeat
Give me some hope, I'll give you some sleep
Why can't we make amends?
The only way out is the way we came in

CH: Let's pick up all the pieces
And turn them into reasons
Cause we're going nowhere
There's nowhere to be
I'm just not in the mood to leave
