Look at all the people looking at she  
floating round the room like she's living on the tv  
we all end up watching her and then she thinks we're  
fans  
but she isn't even famous she just acts like we should  
kiss her ass  
-chorus-  
She's so full of herself  
I'd like to thank her for the show  
and she'll thank the Academy  
for recognizing what she already knows  
who can satisfy  
it's so hard to be society's dream  
you might hate the type  
but she amuses me  
Tell her you could have her and she might owe you a  
kiss  
she's another case of Leading Lady-itis  
already talking to her is like talking to a wall  
because she has so many day jobs, there's nothing  
really there at all  
-chorus-  
standing (standing)  
waiting (waiting)  
laughing (laughing)  
fading (fading)  
lady (lady)  
She waited too long  
and had to run home  
and hang up the phone  
cause time is too expensive dear  
-chorus-  
she's so full of herself (x 9)
