Distant lover, lover (lover, lover, lover)  
So many miles away  
Heaven knows that I long for you  
Every night, every night  
I plan, sometimes I dance  
Through the day  
Distant lover (lover, lover, lover)  
You should think about me  
And say a prayer for me  
Please, please baby  
Think about me sometimes  
Think about me here  
Here in misery  
Misery  
As I reminisce, oh baby, through our joyful summer  
together  
The promises we made  
All the daily letters  
Then, all of the sudden  
Everything seemed to explode  
Now, I gaze out my window  
SDugar, down a lonesome road  
Distant lover (lover, lover, lover)  
Sugar, how can you treat my heart  
So mean and cruel  
Sugar, sugar  
Treat every moment that I spent with you  
I treasure every like it was a precious jewel  
Please, Lord have mercy  
Please, come back, baby  
Somethin' I wanna say  
When you left  
You took all of me with you  
Do you wanna hear me scream  
Come back and hold me, girl
