Back when we let the good times roll  
You held on to me heart and soul  
It wasn't really very long ago  
Let's go back again

Reach out and turn the TV off  
Slow down, let the world get lost  
Slip into something nice and soft  
And lie here in my arms

And love me like you love me  
Do it like you mean it, one more time tonight  
Hold me close and love me like you love me

Take all your dreams and shattered hopes  
Every angry word we ever spoke  
And trade 'em for a couple of cherry cokes  
Lay here for a while

There are no questions that we need to ask  
Every precious kiss could be our last  
There is no future and there is no past  
All we've got is now

So, love me like you love me  
Do it like you mean it, one more time all night  
Hold me close and love me like you love me

Don't you know that I'll always love you  
So, show me that you feel it too, oh

Love me like you love me  
Do it like you mean it, one more time all night  
Hold me close and love me like you love me

Love me like you love me  
Love me like you love me
