(Steve Wariner/Kent Robbins)

My, my how the time don't fly when you're stuck in a  
love  
As your baby says bye-bye it's time to cry  
'Cause healing hands don't help me when they go  
around so slow  
One night takes forever to go by my how the time don't  
fly.

Nothing's right about this night without you here to hold  
me  
This heartache is taking it's own sweet time  
What did I do, what did I say, what do I do now  
While I'm waiting for these teardrops to subside.

My, my how the time don't fly when you're stuck in a  
love  
As your baby says bye-bye it's time to cry  
'Cause healing hands don't help me when they go  
around so slow  
One night takes forever to go by my how the time don't  
fly.

My, my how the time don't fly when you're stuck in a  
love  
As your baby says bye-bye it's time to cry  
'Cause healing hands don't help me when they go  
around so slow  
One night takes forever to go by my how the time don't  
fly.

How the time don't fly  
My how the time don't fly  
My, my how the time don't fly  
How the time don't fly.

My, my how the time don't fly  
My how the time don't fly...
