Boys, we're living in a brave new world  
Let me tell you what I've learned about girls  
In this age of high tech and state of the art  
When it comes to love you've still gotta talk to her heart

She can have a college degree  
MBA or a Ph.D  
She can be strong and she can be smart  
But when it comes to love, you've still got to talk to her  
heart

You got to be honest, you got to be real  
You got to tell her how you really do feel  
Don't talk about fishin', don't talk about cars  
Talk about the moon and talk about the stars  
Tell her she's beautiful, just talk to her heart

You got to be honest, you got to be real  
You got to tell her how you really do feel  
Don't talk about fishin', don't talk about cars  
Talk about the moon and talk about the stars  
Tell her she's beautiful, just talk to her heart

Well, there's been a lot of changes since time began  
But nothing's changed between a woman and a man  
It's how things were, it's how things are  
When it comes to love, you've still got to talk to her  
heart  
When it comes to love, you've still got to talk to her  
heart
