The competition's getting tough, good enough ain't  
good enough  
Lately I've been workin' way too hard  
Go ahead and take my hand, forget about the  
rainbow's end  
I'd have it all if you were in my arms

So you be my everything  
And I'll be the one who loves you  
I don't want you to just wear my ring  
I want you to be my everything

When you wish upon a star, what you dream is what  
you are  
You've got to find your true identity  
I don't want no quick success, the bottom line is  
happiness  
What I need is you right here with me

So you be my everything  
And I'll be the one who loves you  
I don't want you to just wear my ring  
I want you to be my everything

I've been all over the world  
And I've only learned how much I want you girl

You be my everything  
And I'll be the one who loves you  
I don't want you to just wear my ring  
I want you to be my everything, ooh
