They call her Hot Sauce

She's hot and spicy

But twice as nicey

Although she burn me up

They call her Hot Sauce

She's hotter than pepper

I would have kept her

Although she burn me up

What if fire didn't burn?

How would the lesson get learned?

You sit there like a dope until you choke on all the  
smoke

(smoke gets in your eyes)

Cover me in your sauce baby

Bury me in all that sauce

Smother me in your hot sauce woman

Til smoke come from your thighs

They call her Hot Sauce

She's hot and spicy

But twice as nicey

Although she burn me up

They call her Hot Sauce  
She's hotter than pepper  
I would have kept her  
Although she burn me up  
The brother in the codpiece  
I seen him on the TV  
I think he likes his ladies  
All sweet and sugary  
I'm partial to a pudding  
But that's for second course  
The main meal and the hors d'oeuvres  
Must be smothered in hot sauce.

They call her Hot Sauce  
She's hot and spicy  
But twice as nicey  
Although she burn me up  
They call her Hot Sauce  
She's hotter than pepper  
I would have kept her  
Although she burn me up - oh!  
What if steam didn't scold?  
When would the story be told?  
She sat and smoked a fag  
While I was gagging on the shag  
(shag gets in your eyes) - yes!  
Lemme get lost in your sauce baby

Cover me in your sauce  
Lemme get lost in your hot sauce woman  
There was a fire truck attending  
The smoke pouring from her nose  
Her state of mind depending  
On which way the wind blowed  
Chili and tobasco  
Dripping on my shirt  
I couldn't breathe - I couldn't see  
I had to call a smog alert
