Time they call the universal healer
But you're back every three days, settling all around
me
A feather duster's no substitute for the real thing
And the dust you left behind is settling still

With you dawn never tasted so good
Swept up like debris on a Saturday night, did we ever
have fun?
The dust, the gentle legacy You left behind
Is falling softly on my mind

Dust, the timeless memory of you
I love you, I do for all the little things you do
And I guess I always will
The dust settles again to remind me still
Of a memories I've cherished so long

Hold me close to your side
'Cause my love won't decay anymore
Memories of hope of those long summer days
And the dust you left behind is settling still

With you dawn never tasted so good
Swept up like debris on a Saturday night, did we ever
have fun?
And the dust, the gentle legacy, You left behind
Is falling softly on my mind

Dust, the timeless memory of you
I love you, I do for all the little things you do
And I guess I always will
The dust settles again to remind me still
Of a memories I've cherished so long

Feeling your body stretched so long
What was it, went so wrong?
That our love, our love it was gone, oh it was gone
But our friendship going strong, gone strong, so much
strong, oh
Going strong, going strong, oh

Feeling your body stretched so long, stretched so long
What was it, went so wrong, went wrong
That our love, that our love it was gone, gone, gone,
gone
But our friendship going strong, gone strong
Going strong, going strong, going strong
