I want to know why do you always run around  
I want to know why do you always run around  
Every man I know is watching you pull me down

I want to know, do you really mean to hurt me  
I want to know, do you really mean to hurt me  
Well, I'm tryin' to understand the [? ] way you always  
treat me

I want to know if I can come home every night  
I want to know if I can come home every night  
Well, oh woman, oh woman, why can't you try to treat  
me right

I wanna know, I wanna know  
Hey hey I want want, I wanna know, oo oh  
All right, what do you say  
Well woman, oh woman, why can't you try to treat me  
right
