Steve Winwood
"Shining Song"

Baby's eyes feel them lookin' at me
Realize what I would have her see
Realize how dark this world can be
That's why I better keep shinin', shinin'
Keep shinin' right down the line

Love's a light, it keeps leadin' us on
When it's right, it'll shine till we're gone
Keep it bright out there in the unknown
You know we better keep shinin', shinin'
Keep shinin' right down the line

Here's my shining song, I hope you can see it
Here's my shining song, from my heart
Here's my shining song, and I know you need it
If we keep shinin' on, we'll never shine alone

Love the night, 'cause that's when I hold you
Feel the might of all the things we do
Oh, the sight when we're both comin' through
I love you, 'cause you keep shinin', shinin'
Keep shinin' right down the line

Here's my shining song, I hope you can see it
Here's my shining song, from my heart
Here's my shining song, and I know you need it
If we keep shinin' on, we will never shine alone

So shine, just show the world how bright the world can
be
Let it shine, so every heart can see

Shinin' star lead us on through our lives
You're so far but your light still arrives
Shining star, shine for all those who still cry
It helps to know you're still shinin', shinin'
You're shinin' right down the line

Here's my shining song, I hope you can see it
Here's my shining song, right from my heart
Here's my shining song, and I know you need it
If we keep shinin' on, we will never shine alone

Let it shine, let it shine on, shine on

Here's my shining song, I hope you can see it
Here's my shining song, from my heart
Here's my shining song, and I know you need it
If we keep shinin' on, we will never shine alone

Shining song, shining song, shining song, shining song
Shining song, shining song, shining song, shining song
Shining song, shining song, shining song, shining song
