Even duncan told me 'bout the way you let it go  
Giving up is easy when nobody has to know  
Said it's not opposed to want to wear the shoe that fits  
Anyway exceed the battle smash myself to bits  
Sally, she once said that she was delt the lucky hand  
When she tried to cash her chips I couldn't understand  
She said I had to see if i had the guts to call it quits  
Seemed to be just good enough to smash myself to  
bits  
Got a list of stupid choices, long as I can see  
Wish that i could change them all but, that's not meant  
to be  
So i've had to turn the tide and still i take my hits  
Forget my vows and find new ways to smash myself to  
bits
