"If It's Only Love"

When everything is gone
Love will still live on
Your love lives on

If it's only love
I receive from you
I guess only love will do
I would be a fool
If I walked away from the one thing I know keeps me
going each day
If it's only love
Waiting there for me
Then that's how it has to be
If it's only love
It will still mean more
Than all I've ever had in my lifetime before

When everything is gone
Love will still live on
Your love lives on

If it's only love
That you have to give
That is all I need to live
'Cause it's only love
That will get me through
And what you have inspired
Is my greatest desire - to return it you to you
