Uh baby, oh oh

I was caught up in a shadow and I couldn't see the light
The sky was falling, I was running with no finish line in sight

Then it happened out the blue, a ray of light to see me through

Now the clouds are floating from me and my life is just so good

Now I got sunny days and butterflies and warm December nights

It seems like everything is going my way

'Cause I'm in love again

Oh it feels so good to be in love again

Never thought that I would feel this way again

Until she came around

Now it feels so good to finally be in love again

I'm in love, I'm in love, lo-love again

I'm in love, I'm in love, lo-love again

I'm in love, I'm in love, lo-love again

I'm in love, I'm in love, lo-love again

In love again

I'm in love, I'm in love, lo-love again

I'm in love, I'm in love, lo-love again

I'm in love, I'm in love, lo-love again

I'm in love, I'm in love, lo-love again

No more crying, no more fighting 'cause I found a better way

And now I made it, all I'm wishing is that things will never change

I waited so long for this day but I know it was worth the wait

No more searching, life is perfect, things will never be the same

Now I got sunny days and butterflies and warm

December nights

It seems like everything is going my way

'Cause I'm in love again
Oh it feels so good to be in love again
Never thought that I would feel this way again
Until she came around
Now it feels so good to finally be

'Cause I'm in love again (oh I'm in love)
Oh it feels so good to be in love again
Never thought that I would feel this way again (Never
thought that I would feel)
Until she came around
Now it feels so good to finally be in love again (feels so
good)

In love again
In love again

I'm in love, I'm in love, lo-love again
I'm in love, I'm in love, lo-love again
I'm in love, I'm in love, lo-love again
I'm in love, I'm in love, lo-love again
In love again
I'm in love, I'm in love, lo-love again
I'm in love, I'm in love, lo-love again
In love again
I'm in love, I'm in love, lo-love again
I'm in love, I'm in love, lo-love again
