Damn baby, I need to tell you something
I know I treated you bad, but I'm willing to change...
listen

Let me take a minute girl and say what's on my mind
Said I been wanting you and needing you
Il be the first to say that I have been so blind
Gotta admit it now
Cause I dunno how to live without you
Don't really wanna waste your time
But I gotta say what's on my mind
Before you go, gotta let you know
Girl your the only one for me
What can I do to make you see
I need you girl

I just wanna luv u
I just wanna luv u forever more
I just wanna kiss u
Baby why can't u see your the one I want
Baby u just wanna hold you
I just wanna prove to you my love
Il love you all your life
Promise girl il make it right
Luv u, luv u babe

See the truth is girl I can't tell no lies (no lies)
Girl I have enough of...
Baby can't you see
Your the only one for me
Don't really wanna waste your time
But I gotta say what's on my mind
Just hear me out
Oh please don't shout
Girl your the only one for me
What can I do to make you see
But I have changed, I'm not the same

I just wanna luv u
I just wanna luv u forever more
I just wanna kiss u

Baby why can't u see your the one I want
Baby u just wanna hold you
I just wanna prove to you my love
Il love you all your life
Promise girl il make it right
Luv u, luv u babe

Ohh yeeh yeehhh
(girl il make it right)
Yeehheeh ohhh ohh

I just wanna luv u
I just wanna luv u forever more
I just wanna kiss u
Baby why can't u see your the one I want
Baby u just wanna hold you
I just wanna prove to you my love
Il love you all your life
Promise girl il make it right
Luv u, luv u babe

I just wanna luv u
I just wanna luv u forever more (can I be, can I be)
I just wanna kiss u
Baby why can't u see your the one I want (can't you see)
Baby u just wanna hold you
I just wanna prove to you my love
Il love you all your life
Promise girl il make it right (promise girl I'll make it
right)
Luv u, luv u babe
