Everybody in love let me see your hands, put them  
lighters up  
Everybody in love let me see your hands, put them  
lighters up  
Everybody in love let me see your hands, put them  
lighters up  
Everybody in love let me see your hands, put them  
lighters up

Fame and fortune was what I lived for  
Cars and cribs, I thought I would die for  
You should know it all changed  
When I found you, found you  
Clubs and shows, they just don't excite me  
So content when you're here beside me  
All I ever wanted  
I found in you, in you

Now that you're here, nothing is gonna change  
I don't want nothing else just as long as I have you

Baby, there won't always be sunny days  
But I know everything is gonna be okay  
'Cause when the rain is pouring down, I know  
You're gonna come through like a rainbow  
It don't even matter what I'm goin' through  
'Cause, girl, I know that I can always count on you  
'Cause when the rain is pouring down, I know  
You're gonna come through like a rainbow  
Rainbow, rainbow  
You're gonna come through like a rainbow  
Rainbow, rainbow

Travelled far to so many places  
Seen my share of beautiful faces  
You should know that you've got a thing on you, on you  
TV shows and radio stations  
When they ask, I say that I'm taken  
Ain't no holdin' back how I feel for you, for you

Now that you're here, nothing is gonna change

I don't want nothing else just as long as I have you

Baby, there won't always be sunny days  
But I know everything is gonna be okay  
'Cause when the rain is pouring down, I know  
You're gonna come through like a rainbow (like a  
rainbow)  
It don't even matter what I'm goin' through  
'Cause, girl, I know that I can always count on you  
'Cause when the rain is pouring down, I know  
You're gonna come through like a rainbow  
Rainbow, rainbow  
You're gonna come through like a rainbow  
Rainbow, rainbow  
Yeah

If only you could see just what I see  
You would know just what you mean to me  
Girl, there ain't a doubt up in my mind  
That I wanna be with you for life  
Even when the seasons fade away  
I know your love for me will never change  
It feels so good to know you're here to stay

Everybody in love let me see your hands, put them  
lighters up  
Everybody in love let me see your hands, put them  
lighters up  
Everybody in love let me see your hands, put them  
lighters up  
Everybody in love let me see your hands, put them  
lighters up

Baby, there won't always be sunny days  
But I know everything is gonna be okay  
'Cause when the rain is pouring down, I know  
You're gonna come through like a rainbow  
It don't even matter what I'm goin' through  
'Cause, girl, I know that I can always count on you  
'Cause when the rain is pouring down, I know  
You're gonna come through like a rainbow  
Rainbow, rainbow  
You're gonna come through like a rainbow  
Rainbow, rainbow  
You're gonna come through like a rainbow
