Words and music by stevie nicks.

For no special reason
I am leaving you for awhile tonight
I'm flying far above you
Still I love you
You make things right

I've been with you before
I'll be with you again
I'll come back for more, yea
The story has a strange ending

Chorus:
Well, you know me I'm a nomad
I can't feel bad
About the way I am
I've been rolling around
My whole life
You're my candlebright in the window

You guide me back again
And I come when you shine
You are not my friend, no
But I am something of a dreamer
I am something of a dreamer
I am something of a dreamer

Chorus

Still I love you
My candlebright
You are not my friend
But still I love you
You're my candlebright
Still I love you
But you are not my friend
But still I love you
