Who knows what this life is for?  
Every question leads to more  
Only one thing frees my mind  
Only one thing sees that's blind

Faith, faith in what I can't explain  
Faith, knowing sun will follow rain  
Faith, still believing love is new  
Faith is what I have in you  
Faith, faith in what I can't define  
Faith, trusting in this heart of mine  
Faith, knowing what this world can be  
Faith is what you give to me

Never have to wonder why  
I don't even have to try  
Faith will always lead the way  
And it's stronger every day  
Faith, faith in what I can't explain  
Faith, knowing sun will follow rain  
Faith, still believing love is new  
Faith is what I have in you  
Faith, faith in what I can't define  
Faith, trusting in this heart of mine  
Faith, knowing what this world can be  
Faith is what you give to me

Holding onto something real  
Something I can really feel  
No more room for any doubt  
That's what faith is all about  
Faith, faith in what I can't explain  
Faith, knowing sun will follow rain  
Faith, still believing love is new  
Faith is what I have in you  
Faith, faith in what I can't define  
Faith, trusting in this heart of mine  
Faith, knowing what this world can be  
Faith is what you give to me
