Crying in the morning...trying to be strong
Waiting for the spring to turn into the fall
Love don't mean what it says at all
And destiny says that I'm destined to fall...

Enchanted...you thought you saw something in my eyes
Enchanted...it's a shame that you wanted me...
You didn't try...

Why the sad face...oh darling...
Was it my darkness...shadow light
I mean to cause no trouble for you
That is the story of my life...

Enchanted...you thought you saw something in my eyes
Enchanted...it's a shame that you wanted me...
You didn't try...
Enchanted...wo it's just a voice thru the night
Enchanted...well I hope you make it...

You were gone...you were gone from me
When I remember someone...I remember their dreams
In those dreams...that no one knows of
My destiny says that I'm destined to run...

Enchanted...Ooo...you thought you saw something in
my eyes
Enchanted...it's a shame that you wanted me...
You didn't try...
Enchanted...well it's just a voice thru the night
Enchanted...well I hope you make it...

Enchanted...well...I hope you make it
Wo...wo...wo
I hope you make it
