It's not that I can't tell you
It's not that I can't find a way
It's just that I love you
More than words can say

How could I describe
How I come alive with you
How could I explain
How you stop the rain from falling down?

You know just where my heart is
You carry it from day to day
You know what I feel is
More than words can say
Let me show you now
Let me show you how much I need you
If you need to hear
Words to make it clear

I'll tell you every morning
Tell you every evening
Tell you that I love you more than words can say
I love you more than words can ever say
I love you more than words can say
