When you walk across this land
You will understand
We have all it takes to be one nation hand in hand
As you look at every face
Look beyond the race
Then you'll see we're all American

This is America
The dream for all to see
This is America
Our strength is you and me

We have come from near and far
To get to where we are
Some have had it easy and some have had it hard
But as different as we seem
We all share a dream
And we won't let that dream be torn apart
This is America
United we will stay
This is America
The dream lives on today

This is America
The dream for all to see
This is America
Our strength is you and me
This is America
United we will stay
This is America
The dream lives on today

America, the dream lives on today
