Are you curious what I ate for breakfast
do you wonder what I did last night
I did not post it on Facebook this time
did you hear that I got a brand new album
I'm pretty sure is gonna wild and more
but I care only if I well you
it's true

True
and what sure did you decide to wear ..
are you scrappy or did you shape
either way I bet you're looking Okay
but you change your look like you change your ..
and always want a new beginning
I only wondered the middle part oh oh screw the start,
start, start
and be by ..that it's been a while
but I would die to see you smile
one more term something silly I die
and I look for you in subway cars
..sometimes embars but I think
really might be gone oh gone, gone, gone

..quiet okay
and there's nothing I need to see
and there's nothing you need to do
just know that sometimes I still think of you

And thought ..passing by
I almost..to come and say I
but then what?
we both say Hi and how are you
and what have been up to in to
and then we have to say goodbye
for the million time, time, time
a million time, time, time
One last time
