[Verse 1: Dominator]

You got the makings of a lover, mama make me wanna studder

I wonder what your body looks like, under the covers

You're a big flirt

But you ain't no hoe

I see you peeking out the window

At my carton

Call me, confess a feelin'

Don't be afraid

The love I give to you will make you do what I say

Anyways (Anyways)

I'm always free on Sundays

Eating hot menudo, cool though, stumblin' down the hallways

Orale

Baby girl, you know my-a stylo

We do it with class, y yo no soy un chavalito

Give me a minute

No, give me twenty-five

I got my homie Capone-E, outside, in the ride

We gonna roam the calles

For a little while

Bump a few oldie rollas

And make the heinas smile

Then I'll be back

To make it with you

Make it hump all night

Play the game, but I'm no fool

Chorus: Dominator

I wanna make you say, "Yeah-i-yeah"

You're beautiful baby, one of a kind

And everything will be ok

We'll be together forever, just you and I

Can you make me say, "Yeah-i-yeah"

Cause there will never be another for me

I wanna be with you always

Cause you were meant for me

I'm dreaming casually

[Verse 2: Mr. Capone-E]

Don't trip, mija
It's all said and done
Now when Capone-E comes through, I'll be the one
Don't cry (Don't cry)
And listen to this rola
I'll be right around the corner, so look over your
shoulder
I told ya
You're the one for me
Kick it back with Dominator, I'll be home around three
Sincerely yours
Bumpin' The Commadores
Like the escorts
I'll take ya on my tour
Flight after flights
Without no fights
Eatin' all night
Company ain't no price
I love the way that you
Talk to me
I love the way that you're still calling me
Baby please
Trust is number one
Now when I vuela the girl
It's all about fun
So as I cruise
Don't go away
Trust this gangster and this gangster's here to stay

Repeat Chorus

[Verse 3: Dominator]

She said she's shy (Shy...)
Cause it's her very first time
She thinks I'm fine
So tonight's the night
I'm might
Light up a candle
And turn off the light
Mi amor, mi cholita
She puts up no fight
Firme, suave
Long black hair
Down to your back, make a vato wanna stare
Finally
Under the covers
I love you mija
You got the makings of a lover

Bridge: Dominator

You got the makings of a lover (Makings of a lover)
You got a star that'll make a man to walk a mile
Just to see you
Or just to hold ya hand
Spit game to ya
I'll make you understand

Repeat Chorus

[Mr. Capone-E]
That's right, mija
This little song's for you
And no matter what I say
This gangster's here to say
Sincerly yours
Mr. Capone-E
Oh!
