One two three four go!
It's one thing to turn your back on everything you
believe
But now you've turned your back on me
What happened to you [3x]
And I may not wear my heart on my shirt
On my hand as a badge as a brand
But that doesn't mean
This isn't sticking with me. Come on!
This isn't sticking with me [2x]
Lets take this back to the beginning
Who stood by who
Who helped you up when you fell through
I'm not looking for recognition I want you to understand
my position
I don't agree with your decisions
I've seen you conquer so much more...
But I'm still here and that wont change...
My heart remains the same...
And I may not wear my heart on my shirt
On my hand as a badge as a brand
But that doesn't mean
This isn't sticking with me. Come on!
This isn't sticking with me [2x]
Bring it back down! [2x]
You turned your back on me [4x]
And everything you believe!
You turned your back on me and everything you
believe.
