Smack, speed and lsd's get me as high as i be wanting to be.

Incomplete so to speak, fuckin shag your mother seven nights a week.

Drugs and stuff pump me up, the gear make my mind corrupt.

Don't tell me you don't want me to, i'll reply whats it to you.

So you get pissed off, tell me you don't want me no more.

The drugs have taken me over and i don't wanna go back no more.

So listen up, yeah to me shoutin away, coz i got somethin to say.

Fuck you, your muma to and stick a knife right through you.

Sex, drugs and alcohol. joint after joint i'm on a role

Have i lost all control? Over body and mind, deep through my soul.

Theres me and a few others who love liven life this way, day after day.

Maybe i should, without guilt and heart, maybe you should start

Coz its da boyz in da hood

Wild and inspired, thats how the drugs make me feel,go real deal.

Who needs health when you can have a good time

Fuck health, whats that if you ain't got a fucked up mind.

So now i don't care about anything there. Near here or mother fucking anywhere.

When i'm high, I could be hired to kill you and your hole family too.

Matters if the price is right and if so i'll do it day or night.

When your in bed sleeping away, when you don't know who's coming your way.

I'll kill you for money, then i'm so mad i'll even laugh coz i find it funny.

Got my point yet about bein mad, shot to bits upstairs in this life i've had.

You got a problem with that coz you'll be next on my list, see i really am all bad.

What could i use to kill you? A knife or gun or maybe both to make it more fun

It don't matter your just money, 1 more shot in the head, 1 more person dead.

Hey don't worry you, its ok you'll get your turn oneday too.

It'll be really good, coz its me and da boyz in da hood
