"Days Of Our Lives"

Visit "[Days Of Our Lives](#)" on MotoLyrics.com

So were driving in the car
But were not getting to far
Cause we dont know where to go
Just sitting 'round going with the flow

And time is passing by
Living with these temporary highs
Thinking that were going sowhere
But just sitting 'round saying lifes not far

Im so sick of hearing this
You're lifes like a blank canvas
No direction or place to go
I look to you and Just say no

Poverty is your pleasure
Living straight out of the gutter
But now its time to say to you
I need you to guide me through and

Thats when i said i needed you
And You said its ok your lifes not through
Now you taken me under your wing
Now its time for me to sing

So come at me with your best shot
And I'll tell you one thing im not
Afraid of what you think of me
Now my life has the key
