

December Star

"Never Stop"

Visit "[Never Stop](#)" on MotoLyrics.com

You walked away, but you hear my voice
You walked away, it was your choice

I walked away, but I don't care
I walked away, this life's not fair

You never stopped to listen
Never stopped to listen
You never stopped to listen

Nobody knows me, I don't understand
Does this life have a master plan
Can you help me to comprehend?
I don't understand

I know you, you don't know me
I know you, like sugar in your tea
But could you tell me just a little bout me
You don't know me

I never stopped to listen
Never stopped to listen
I never stopped to listen

I'll turn around, will You welcome me home
Turn around, you were never alone
