I saw you falling with your head in the sky
I tried to leave it but I need to know why
Cos I like you and I'd like to tell you how it is
But there's no way down for me

Hey Cinderella
I come and get ya
Let's get together
Under the stormy weather
I don't think you thought this through
Cos you need me and I want you

I see you laughing every once in a while
Like Mona Lisa with that million dollar smile
When you find it
Don't fight it
Cos things are gonna change
Oh there's no way down for me

Hey Cinderella
I come and get ya
Let's get together
Under the stormy weather
I don't think you thought this through
Cos you need me and I want you

We're just a step away
And I know you feel it too
Just like those northern skies
There's no divide
I can't hide from you

Hey Cinderella
Let's get together
I come and get ya
I come and get ya

Hey Cinderella
Let's get together
Under the stormy weather
I don't think you thought this through

Cos you need me and I want you
