What's going in here, Is there another way out
I'm gonna disappear, I'm gonna stand up and shout
I wanna celebrate, I wanna you give up
I wanna demonstrate, I'm gonna give it all

There's to much standing water, I can't seem to breath
There's to much standing water, There's panic on the
streets
So give em what they want, I'll give em what I got
Give em something that they really need
Oh try to tell me why, why you say, why ya telling me

What's going in here, Is there another way out
I'm gonna disappear, I'm gonna stand up and shout
I wanna celebrate, I wanna you give up
I wanna demonstrate, I'm gonna give it all

There's to much standing water, I can't seem to breath
There's to much standing water, There's panic on the
streets
So give em what they want, I'll give em what I got
Give em something that they really need
Oh try to tell me why, why you say, why ya telling me

And just let go, this heart and soul
There's something that you hold, Ohhh, oh
I'd rather know, what hurts the most
It's something that you hold, Ohhh

There's to much standing water, I can't seem to breath
There's to much standing water, There's panic on the
streets

There's to much standing water, I can't seem to breath
There's to much standing water, There's panic on the
streets
So give em what they want, I'll give em what I got
Give them something that they really need
Oh try to tell me why, why you say, ya telling me
