She is a wave
And she's breaking.
She's a problem, to solve
And in the circle she's making
I will always revolve

And on her sight
These eyes depend
Invisible and indivisible

The fire, you ignite it
Good, bad and undecided
Burns when I stand beside it
Your light is ultraviolet.

Visions so insane
Travelling, unraveling
through my brain.

Cold, when I am denied it
Your light is ultraviolet
Ultraviolet.

Now is a phase
And it's changing.
It's rotating us all.

Thought we were safe,
But we dangling
And it's too far
To survive the fall.

And this I know:
It will not bend.
Invisible and indivisible.

The fire you ignite it
Good, bad and undecided.
Burns, when I stand beside it
Your light is ultraviolet.

Visions so insane

Travelling, unraveling
Through my brain.

Cold, when I am denied it
Your light is ultraviolet.
Ultraviolet.

(Guitar solo)

The fire you ignite it
Good, bad and undecided
Burns, when I stand beside it
Your light is ultraviolet.

Visions so insane
Travelling, unraveling
through my brain.

Cold when I am denied it
Your light is ultraviolet

Ultraviolet

Your light is ultraviolet.

Visions so insane
Travelling, unraveling
Through my brain.

Cold, when I am denied it
Your light is ultraviolet.
Ultraviolet.
