When the sky is as blue as only the sky can be
And the sun in my eyes makes it hard to see
The world is just too good to be true
To tell the truth: so are you

I can't stop smiling and I don't wanna try
This is the way I decided to die
Makes me smile when you do what you do
Makes it impossible not to fall for you

Heaven has changed color from blue to pink
Today is Monday tomorrow Tuesday I think
My head is messed up with thoughts but that's okey
At least I know I've never ever felt this way

Everything has an end and so has this day
But I wanna stay forever, don't wanna walk away
Summer is long, and it's only June
Will I see you again soon?

Heaven has changed color from blue to pink
Today is Monday tomorrow Tuesday I think
My head is messed up with thoughts but that's okey
At least I know I've never ever felt this way

In your eyes I can see the sun going down
The summer-spirit is all around
All that matters is you and me now
Got so much to say but I don't know how

Heaven has changed color from blue to pink
Today is Monday tomorrow Tuesday I think
My head is messed up with thoughts but that's okey
At least I know I've never ever felt this way

Life is easy, no trouble in sight
This feeling inside of me feels so right
The way that you look at me makes me wanna fly
Tell me baby, do we have to say goodbye
