All these days that you tried to make me be make me
be a part of thee
Cant you see i never asked for it but still youre pushing
me around like a hound
Dont you know i dont like you anyway so please shut
the fuck up
Well you dont need no gun to kill me
You dont need no sword to hurt me
Your words can be harder than any sword
Your words can be stronger than any bullet
what is it that makes you feel this way brings all this
hate into your mind
life is hard enough aspecialy if youre me oh cant you
see im on my knee
dont you have any mercy with me i dont like to be your
scapegoat anymore
if you try to brake me down bring it to the end right now
Well you dont need no gun to kill me
You dont need no sword to hurt me
Your words can be harder than any sword
Your words can be stronger than any bullet
i know you will punish me the rest of my life if i dont run
away
where to go oh i dont know but it doesnt really matter
anyway
i dont want to see the sunset again what i really want is
to die right now
